

Part Number: V-VSN-7-DT-E
Description: Dual Tour Saddle
Fitment: 2007 Victory Vision
Revision: 1

Tools Required	Parts List
	Dual Tour Saddle

1. Remove your stock seat. Refer to your owner's manual if necessary.
2. Corbin's Dual Touring saddle installs easily on your bike using existing positions on your bike. All installation hardware is included so your new saddle is ready to go right out of the box. Seat heaters work with stock Victory wiring.
3. The heater is controlled by the switch along the side of the saddle. There is a low position and a high position and temperature will be controlled by an internal thermostat. Both the rider and passenger areas are operated by the single switch. Heat will only operate when motorcycle ignition is ON and takes a couple minutes to warm up.

NOTE: Heater controller shuts off automatically after 1 hour. Turn switch off and on to restart for another hour.

SURFACE TEMPERATURE PERFORMANCE
