

Part Number: V-200L-5 & V-GTS250-6

Description: Scooter Saddle

Fitment: 2004-2006 Vespa Granturismo 200L
2006 Vespa GTS 250 ie

Revision: 2

Tools Required	Parts List
Phillip Screwdriver 10mm Open Wrench	2 6mm x 16 Hex Head Bolts 2 6mm Washers

NOTE: Corbin's Dual seat is designed to mount just like stock and includes hardware and weather stripping preinstalled on the saddle.

1. Simply remove the storage tray from under your seat (*Figure 1*) and remove the two phillips head screws holding the seat hinge to the chassis. Now bolt the Corbin saddle in its place using the hinge, bolts and washers supplied (*Figure 2*). Replace the storage tray.

2. The seat will now hinge and latch just like the stock seat. Notice the Corbin latch bracket is adjustable to assure perfect alignment with the seat lock (*Figure 3*).

NOTE: Corbin saddle does not include rain cover like the stock unit.
